SUMMARY

Content creator and social media manager since 2022, managing organic growth, video content, and brand voice across Instagram, Facebook, TikTok, YouTube, LinkedIn, Snapchat, Telegram, and X/Twitter for multiple client brands. Real, verified result: took a client's Instagram, Facebook, and Twitter/X from 0 to 10,000+ followers in 7 days through content plus targeted paid boosting, then monetized that audience to \$5,000+ in revenue within 30 days. Comfortable owning the full content pipeline -- planning, filming, editing, posting, and reading the analytics that show what actually grows an audience versus what just gets likes -- and translating that into growth strategy a brand can follow.
