Dear Hiring Manager,

Here is what I would bring to the MARU trial:

1. A clear, repeatable system for organizing your Air "All Assets" board into the four existing boards -- not just a one-time sort, but a logic you can keep using as new assets come in.
2. A cohesive 12-post Instagram grid built in Canva around MARU's tropical, minimal-ingredient aesthetic, matched to the examples you shared.
3. Content and photo-management judgment shaped by managing skincare/cosmetics brand presence specifically, not just general social media experience.

I have managed content and social media for cosmetics brands (Luscents, McDobi GLOBAL, Hopmichar) since 2022 -- the same category as MARU -- and took a separate client's Instagram and Facebook from 0 to 10,000+ followers in 7 days, then monetized that audience to \$5,000+ in revenue within 30 days.

On the DAM tool question: Air itself is new to me, but I am familiar with DAM-style asset organization more broadly -- structuring content libraries in Canva and Drive/Dropbox for client content calendars, which is the same underlying skill of turning a messy asset pile into a system people can actually find things in. I would treat the first board pass as the proof point that this transfers, not a formality.

Available for the under-30-hours/week scope. Happy to start the trial right away.

Best,

Chinwendu Marvellous Ajaegbu-Caleb
