Standing Rules — Locked, Apply to Every Send

Universal send checklist

1. Personalize every [BRACKET] field with real research — never leave one unfilled.
2. One CTA per email.
3. No more than 90 seconds to read.
4. Subject line under 6 words.
5. Never claim a stat that can't be backed up.

VALUE-FIRST RULE (locked): every email leads with the value I'd bring to *them* — a short, specific list of what I'd help them achieve — never a name-drop of past clients as the hook. Past work (Zonia Hub, Suncious Foods, Luscents, etc.) is supporting proof at most, placed after the value list, never the opening line.

DELIVERY FORMAT RULE (locked): every new client-acquisition prospect gets the premium template look, sent as inline HTML in the email itself (Gmail htmlBody) — never a PDF/image attachment, never plain text. Palette: light-purple background (#F5F0FC), deep-purple header/footer bands (#3B0A5C), gold text accents (#E8C866). Never resend to a prospect already contacted same-day just to switch format.

Verified Proof Points

Social media growth: Took James Trading Strategies' Instagram and Facebook from 0 to 10,000+ followers within 7 days (organic content + targeted paid boosting).

Monetization: Turned that audience into \$5,000+ in client revenue within 30 days via direct product/service sales, platform ad-revenue share, and paid brand partnerships.

Use these as the supporting-proof line (after the value list, never the hook) for any prospect whose pain point is social growth, audience building, or monetization.

Sequence A — ICP 1: DTC E-commerce Brands

Email 1 (Day 0)

SUBJECT: [Brand]'s ROAS leak

Hey [First Name],

Spent 5 minutes on [Brand]'s Meta ad account activity (Ads Library) – noticed you're running [X creative angle] but not retargeting cart abandoners with a dedicated sequence.

Here's what I'd fix first:

1. Build a dedicated cart-abandoner retargeting sequence – usually a 15-30% recoverable-revenue gap when missing.
2. Tighten audience segmentation so retargeting spend isn't wasted on already-converted buyers.
3. Test 2-3 new creative angles against your current one to find the actual ROAS ceiling.

Worth a 15-min teardown of your funnel? No pitch, just those 3 fixes in detail. Free.

Email 2 (Day 3, if no reply)

SUBJECT: quick follow-up

[First Name] – following up in case this got buried.

If Q4/holiday ad spend is on your radar, the retargeting fix above compounds fast this time of year. Happy to send the teardown even if a call isn't a fit right now – just reply "SEND IT."

Email 3 (Day 7, breakup)

SUBJECT: closing the loop

[First Name] – I'll stop here unless you want the audit. If ad performance becomes a priority later, I'm one reply away.

Sequence B — ICP 5: Coaches / Info-Product Sellers

Email 1

SUBJECT: your offer, no funnel

Hey [First Name],

Saw your [podcast/YouTube/post] on [specific topic] – strong offer. Didn't see a value-ladder funnel behind it though (no upsell/downsell sequence on your landing page).

Here's what a 3-tier ladder would do for you:

1. Turn one-time buyers into repeat buyers with a structured downsell/upsell sequence.
2. Lift average order value without adding a single new customer.
3. Give you a tripwire offer that pays for the ad spend acquiring new leads.

Want the 3-tier ladder I'd build for [their offer]? Takes me 10 minutes to sketch, free, no strings.

[Your Name]

Email 2 (Day 3)

SUBJECT: the sketch

[First Name] – still happy to send that value-ladder sketch. One reply ("YES") and it's in your inbox today.

Sequence C — ICP 2/3: FMCG & B2B Marketplaces

Email 1

SUBJECT: [Company]'s CAC question

Hi [First Name],

Quick one – how are you currently tracking cost-per-lead across channels at [Company]? Most B2B/FMCG teams I talk to are flying blind on blended CAC.

What I'd bring to [Company]:

1. Full-funnel tracking (GA4 + HubSpot) so you can see blended CAC by channel, not just guess it.
2. A lead-quality filter so the sales team stops chasing unqualified volume.
3. A documented plan to cut blended CAC within the first 60 days.

Open to a 15-min working session on your current funnel? I'll bring those 3 recommendations, not a sales pitch.

Sequence D — Social Media Growth / Monetization Prospects

Email 1

SUBJECT: [Company]'s follower plateau

Hi [First Name],

Noticed [Company]'s [Instagram/TikTok/Facebook] has been sitting around [current follower count] for a while – the content's good, it's a distribution problem, not a quality one.

Here's what I'd fix:

1. A platform-native content system (not cross-posted identical content) built around what's actually driving reach on [platform] right now.
2. A monetization path mapped from day one – sponsorships, product/service sales through the account, or platform ad-revenue share, not "grow first, figure out money later."
3. A weekly test cadence on hooks, formats, and posting times so growth compounds instead of plateauing again in a month.

Proof this works: I took a fintech client's Instagram and Facebook from 0 to 10,000+ followers in 7 days, then monetized that audience to \$5,000+ in revenue within 30 days.

Worth a 15-min teardown of your current content and a growth plan? Free, no pitch.

Email 2 (Day 3)

SUBJECT: the growth plan

[First Name] – still happy to send that teardown + growth plan. One reply and it's in your inbox today.

Message

Hi [First Name],

Been reflecting on the work we did together on [specific project/result] – really proud of that [X]% [metric] lift we hit.

I'm taking on a few new clients this month and would love an introduction to anyone in your network who's dealing with similar growth/ad-performance challenges. Even one name would help a lot.

Happy to return the favor anytime – referral fee or a free audit for whoever you send my way.

Thanks either way,
