SUMMARY

Social media and community manager with hands-on, verified experience growing and monetizing brand audiences across Instagram, Facebook, TikTok, LinkedIn, and X/Twitter -- including taking a client's Instagram, Facebook, and Twitter/X from 0 to 10,000+ followers within 7 days and converting that audience into \$5,000+ in client revenue within 30 days. Direct real estate marketing experience with property brands (Tech City Real Estate, Mercy Divine Properties), plus B2B community management and lead-generation funnel-building (Zonia Hub). Comfortable owning a brand's community end-to-end: content strategy, copywriting, visual storytelling, engagement, and turning that engagement into a measurable sales pipeline.

EXPERIENCE

Digital Marketing Strategist & Media Buyer -- Independent / Contract

- Took James Trading Strategies' Instagram, Facebook, and Twitter/X accounts from 0 to 10,000+ followers within 7 days using organic content plus targeted paid boosting, then monetized the audience within 30 days -- generating \$5,000+ in client revenue through direct product/service sales, platform ad-revenue share, and paid brand partnerships.
- Managed Facebook, Instagram, and LinkedIn community presence for Zonia Hub, a B2B agricultural marketplace, while building lead-generation funnels and GA4/HubSpot tracking infrastructure from the ground up -- improving lead quality and attribution on both sides of a two-sided platform.
- Ran growth and outreach strategy for real estate brands including Tech City Real Estate and Mercy Divine Properties, applying property-specific content and funnel positioning to a sector this role directly serves.
- Managed paid social and performance marketing for e-commerce and cosmetics brands (Luscents, McDobi GLOBAL, Hopmichar) and full-funnel growth strategy for Suncious Foods (FMCG), running campaigns from creative brief through media buy and post-campaign analysis.
- Applied Hormozi-style offer construction and Sabri Suby growth frameworks to build value-ladder funnels that increased average order value and customer lifetime value across client accounts.
